Subject: Pasco Landfill - Pending Enforcement Order Related to Balefill Area Subsurface Fire

Hi Rod,
Just a quick message to inform you that Ecology will be issuing an Enforcement Order today to the 32 PLPs associated with the Site. The EO is being issued to ensure deliberate action to address the subsurface fire that has been burning since late November 2013. The enforcement order is not intended to be punitive. However, we believe a clear directive from Ecology will facilitate the timely planning and extinguishing of the fire.

Please contact me if you have any questions.

Chuck
